

Casino Cayenne Theater

(Cayenne, France)

Located in the heart of Cayenne, along the road to Montabo, the Casino-Théâtre de Cayenne offers an indoor and outdoor gaming casino, a 600-seat auditorium, a lounge bar and a restaurant with a panoramic view. The lighting project emphasises the duality of the equipment: the theatre on the ground floor is designed in gold and red tones, while the casino on the first floor is lit in dynamic shades of light.

The casino machines play an important part in the gambler's experience, and are emphasized by a light that gives them a simple and evident appearance.
