

“Barcelone” public square

(Lyon, France)

Lighting design of the Barcelona square, in the Gerland district of Lyon. Next to the International High School, Gerland Park and the Tony Garnier Hall, the Barcelona square is an urban hub and a very «cosy» place to take a break.

The project bathes the esplanade in a lunar, zenithal and icy glow, in contrast with the forest space, un-

dergrowth framed by orange-coloured skimming lights.
